CHAO CAO TRINH

FRONT-END WEB DEVELOPER

Hi! I'm Trinh, a front-end web developer, who loves to dig deep into how a computer works. Currently, I have two years of experience working as a front-end developer.

WHAT I CAN DO

- **HTML**: Create semantic web page that make sense for both computers and humans using HTML.
- **CSS**: Use pure CSS to create user interfaces and check for browser CSS support issues.
- **JavaScript**: Have a good knowledge of JavaScript.
- **Git**: Basic uses of git.
- **Back-End**: Basic understanding of how web servers work.
